

PRESCHOOL CRAFT ACTIVITY

Collect the following items before you begin:

- Water color paints
 - Craft glue
 - Fruit flavored gelatin
 - Paper
 - Newspaper
 - Paintbrush
1. Place your paper on a sheet of newspaper. Use the watercolors to paint a fruity picture. Look at a bowl of bananas, fruit or something that would help you. Let your paint dry.
 2. After your fruit picture is dry, spread the craft glue over each of your painted fruits in your painting. Sprinkle powdered, fruit flavored gelatin over the wet craft glue.
 3. Let your picture dry.

The Craft Glue will dry 'clear' and you will be left with a sweet smelling picture. Perhaps you can find out what fruit is your dad's favorite and draw a picture for Father's Day!

Enjoy
